The headlight of the Springs train can be seen, after night, immediately after it rounds the bluff coming out of the canyon. This is about five miles distant.

We are spending our leisure hours in preparing a seven column article entitled "Advice to Councilmen," which we will publish some wet day when we are too lazy to hunt up items.

The heavy rain of yesterday evening and last night was severe on the newly constructed street car track down South Pacific street. It rendered the ground too soft and hard on the horses.

The people look to the Optic for the news the same as they do to the hearers for rain.—Optic.

Burial of Mrs. Burris.

The burial of the late Margaret A. Burris took place yesterday afternoon at 4:30 p. m. The weather was extremely unpropitious for the funeral ceremonies, as it rained heavily at intervals throughout the day. But in spite of rain, at the appointed hour a large number of people assembled at the St. Nicholas hotel in carriages and on foot to pay their respects to the deceased. The remains were inclosed in a beautiful rosewood casket, most tastefully decorated by loving hands, with a cross and wreaths of natural flowers. The features of the deceased were composed and looked very natural and sweet as she lay in her coffin. At 4:30 the funeral cortege moved from the hotel to the Episcopal church, where the funeral services were conducted by Bishop Dunlop, who had been telegraphed to come from Santa Fe for that purpose. After the religious services at the church were over the procession moved to the Masonic cemetery where the remains were lowered to rest amid the tears of the family and friends and deep regrets of all. The pall bearers were the following gentlemen: Dr. J. M. Cunningham, C. Frank Allen, C. C. Gise, D. T. Hoskins, J. S. Pishon, A. A. Keen, P. B. and M. A. Otero, Jr. The funeral procession in carriages was nearly half a mile in length. The remains were only interred at this place temporarily, and will be removed at some future time to her former home at St. Louis.

The Essence of Meanness.

The daily Optic having made a number of little drives at me without cause, I deem it time to take my own part. There is no just cause for this course on the part of that paper. I also wish to remind them of the advantage they have over other citizens by the use of their own columns. They can cast injurious slurs upon people which they have no chance to refute. It is time that paper should stop that kind of warfare. I take the DAILY GAZETTE to find the truth of the days' doings.

WM. MORGAN.

J. B. Collier has gone into the lighting rod business and will undoubtedly do an excellent business as he has many friends in this country, being one of its oldest residents. The destruction of Ed. Eberts' saloon at the Hot Springs yesterday afternoon should be a sufficient warning to all to supply themselves with this security. The copper rods for which Mr. Collier is agent is the best in use and will afford greater protection than any other. The great altitude of this section renders lightning strokes very numerous and unless there is some protection against it great damage is often times done.

The next entertainment on the docket for the enjoyment of citizens with literary and musical tastes is to be given on next Tuesday evening by Mrs. Hattie Price. This lady is now in the city, and is a person of rare elocutionary attainments. The programme will consist of choice readings interspersed with songs. Her readings and music have attracted wide attention in Kansas and Colorado. We welcome her to our society and look with expectation to her public appearance.

M. Lynch, of the Tecolote cattle company, will start in a few days to bring the cattle purchased in Texas across the plains. He started with them some weeks ago but was compelled to leave them on account of the scarcity of water and grass on the Staked Plains. The late rains have made it possible to complete the drive. Heavy cattle companies are rapidly closing in around Las Vegas, and it is safe to say that good beef will not be as difficult to obtain next spring as it was this.

Herman Myers and Daniel Lee have rented a store room on Grand avenue and will engage in the merchant tailoring business. Mr. Lee's ability as a tailor is well known and Mr. Myers has had large experience in that line. The latter has been several months ago and was so well pleased with Las Vegas that he has concluded to catch on and go with the crowd.

The following city officers have qualified in the order named: Tranquillo Labadie, city clerk; E. Romero, mayor; J. M. Tafuya, councilman first ward; Harry Franklin, marshal; M. A. Otero, Jr., Treasurer; A. P. Crawford, councilman third ward; Hampton Hutton, street commissioner; Mark Howell, engineer; F. J. Carr, assessor. Several of the councilmen have not yet qualified.

Passengers by street cars to the Plaza Hotel are kicking this muddy weather because the cars go up on the left side of the park instead of to the right, as formerly, and which would save them so long a walk through the mud, the sidewalks being poor. Keep to the right, as the law directs, and passengers from the depot will pass all the hotels conveniently and in order.

A well-known masher of this city drove out yesterday to Tecolote, twelve miles distant, to get his girl's wardrobe for the ball at the Hot Spring. His feelings can be imagined when told on his return by the young lady that she would be accompanied by a handsome man then he. Young fresh got a wet skin, but learned something about woman's hiekie nature.

New and well built houses are becoming numerous in the southern portion of the old town. The hill crowned by the old Presbyterian church is becoming covered with shingle roofs. The extension of the street car line there makes it a desirable place for residences.

M. J. Daley, a gentleman recently from the east, has fallen into the procession marching on to prosperity in Las Vegas, and has made a good investment by purchasing a half interest in the Troy steam laundry. Thus every one finds something profitable in which to engage.

PERSONAL.

Scott Moore, from Albuquerque, is in town.

Wm. Pinkerton, of Wagon Mound, is in the city.

Will Cosgrove and Mr. Gilcester came up from the Pecos yesterday.

Mayor Romero has gone out to his lumber camp. He will be at home tomorrow.

M. Salazar went to Trinidad yesterday to meet his wife, who is returning home from the east.

Wm. Kronig came over from Watrous yesterday afternoon and registered at the Sumner house.

Antonio y A. Abeytia is up from Socorro. Mr. Abeytia is one of Socorro's most prominent citizens.

Sheriff Pat F. Garrett, of Lincoln county, the slayer of Billy the "Kid," is in the city. He went to the Hot Springs last night.

Wm. I. Pond, salesman for Hamilton, Brown & Co., St. Louis, is among the recent arrivals. He went to the Hot Springs last evening.

Mr. W. H. Hatch, a prominent business man of Des Moines, Iowa, is a late arrival in this city. He is the guest of Mr. McClure while at the Springs. They were old acquaintances in Mt. Pleasant, Iowa. Mr. Hatch expresses himself as well pleased with New Mexico, the city of Las Vegas and the Hot Springs, especially, he denominates as delightful.

Wm. I. Pond, St. Louis; Antonio y A. Abeytia, Socorro; Bishop Dunlop; Santa Fe; A. W. Conger, Fort Union; R. H. Brookfield, Topeka, Kas.; R. M. Brookfield, Philadelphia; Mrs. Dr. Thorn and Miss Thorn, Kansas City; Geo. Leas, Green Lake, Wisconsin; J. E. English, Saginaw City, Michigan; Dr. J. B. Hibbern, Topeka, and C. Summerville, Topeka, are registered at the St. Nicholas hotel.

Arrivals at the Plaza hotel yesterday: Simon David, Philadelphia; Saul Kingman, Deming; W. H. Hatch, Des Moines; J. Cooley, Hot Springs; F. D. Island, Hot Springs; Pat F. Garrett, Lincoln; G. B. Wickersham, Pueblo; Antonio y A. Abeytia, Socorro; Antonio Asallas, Trinidad; J. Wilson, Kansas City; C. C. Chapman, Winfield, Kas.; Prof. James F. Maee, Topeka.

Geo. J. Dinkel and wife will start east Monday for a visit of several months. Mr. Dinkel, as cashier of the First National bank of this city, has been closely confined to hard work for a number of years past, and now feels like he should enjoy a short season of rest and recreation. He came to New Mexico an invalid, but has enjoyed robust health while here and has been enabled to work constantly. The GAZETTE wishes Mr. and Mrs. Dinkel a pleasant visit.

Lightning's Havoc.

Yesterday after the Springs during the rain storm that prevailed, lightning struck Ed. Eberts' saloon. The bolt struck the roof knocking it into splinters. It knocked the doors and windows to pieces and scattered the bottles behind the bar in every direction. No one was injured as Mr. Ebert was in the back room at the time. Great damage was done to the building.

Quick Time.

A. A. Robinson and Geo. Melville, superintendent of the road, arrived by special from Topeka yesterday. The trip was made in twenty-six hours. The train only stopped at this point long enough to take Superintendent Sands aboard. They then pulled out for the south. This is pretty fast time.

Feast of Saint Ignace.

Las Vegas college will celebrate the feast of Saint Ignace on the thirty-first inst. Extensive arrangements are being perfected to make the celebration of this feast a noted affair.

Mrs. Taylor F. Maulding and family were on the Pacific express going south on Tuesday morning. They will remain on the Cimarron Cattle Co. ranch during July and August, when they will return to Raton, where a large and handsome dwelling is being built, ready for occupation about the first of September.—Springer Stockman.

Charles Blanchard yesterday commenced to tear down an old wooden building on the north side of Bridge street, near the aqueduct. This is done preparatory to erecting a new stone building there of fifty foot front. It will not be long until Bridge street is built up solid.

The premium list of the New Mexico Exposition and Driving Park association, to be held at Albuquerque, commencing September 18th, is at hand. It is a very neatly gotten up pamphlet. A number of highly colored posters also accompanied the list.

W. F. Crowell has invented an expansive spoke which has considerable merit, it saving the cost of resetting tires. This is quite an item of expense in this dry country. Mr. Crowell has taken out letters of patent and will soon introduce wheels in this city.

The street car company should make their track level with the street. This is done in all eastern cities and many breakdowns are saved thereby. The streets are for the use of all kinds of vehicles, burros not excepted.

Beal & Fenn appear as editors and publishers of the Socorro Miner.

Lightning Keds.

Our old friend and fellow townsman, J. B. Collier, has the best patent copper lightning rods in the United States for sale at very low rates, put up on your building in a neat and substantial manner. He hopes that his old friends will extend to him their patronage and influence.
